

WASP[®] AMS[®]

ADA Compatible Special Access Ramps

**The innovative
special access
ramp for cable
protectors**

The **WASP** (*Walkway Access for Special Purposes*) **AMS** is the next generation in special access ramps for cable protector systems. Yellow Jacket once again sets the standards in cable protection systems. Yellow Jacket, Inc. introduced the first ADA compatible access ramps for cable protectors with the WASP Dropover. The innovative WASP[®]AMS[®] offers the best available technology featuring expandability for the extra wide ramps, forms a highly stable system using Hipersnap[®] locking devices, allows for access from any angle of approach, and eliminates the need for side rails.

The systems are compatible with Yellow Jacket[®] Classic, Yellow Jacket[®] AMS[®] and other cable protectors that use a dog bone connector.

Easy Access for Wheelchairs, Carts and Forklifts

- 4.8 degree ramps allow easy access for wheelchairs, carts and dollies
- Rugged enough to handle forklift traffic
- Slip resistant surface provides traction for pedestrians, forklifts, wheelchairs, golf carts and other carts with small wheels

ADA Compatible

The WASP[®]AMS[®] is fully compatible with all ADA guidelines including ramp angle, avenues of approach, slip resistance and non conductivity. It displays the ADA "wheelchair" symbol.

BarrierFree AMS[™] Access (U.S. Patent # 7,595,450)

The unique BarrierFree AMS[™] side ramps of the WASP[®]AMS[®] provide barrier free access from all avenues of approach. This innovation:

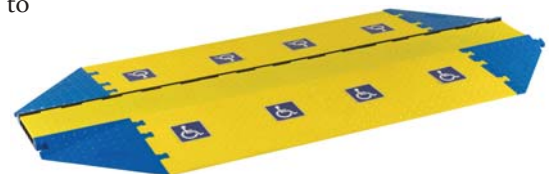

- Eliminates the needs for side rails and the trip hazard they create
- Provides a wide angle of approach for pedestrians, carts and forklifts

Easy to Assemble and Load (U.S. Patent # 7,385,139)

- Ramps snap quickly into place with Hipersnap[®] locking devices
- Center sections open for easy top loading of cables, lines and hoses

Expandable, Extremely Stable Ramp System (U.S. Patent # 7,592,547)

- Connect several WASP[®]AMS[®]s together to form a ramp as wide as needed
- Hipersnap[®] locking devices ensure stable connections

Highly Visible, Well Marked Ramps

- WASP[®]AMS[®]s are the only special access ramps made in high visibility yellow with blue side ramps
- Each ramp incorporates the universally recognized ADA symbol

Compatible with Broad Range of Cable Protector Systems

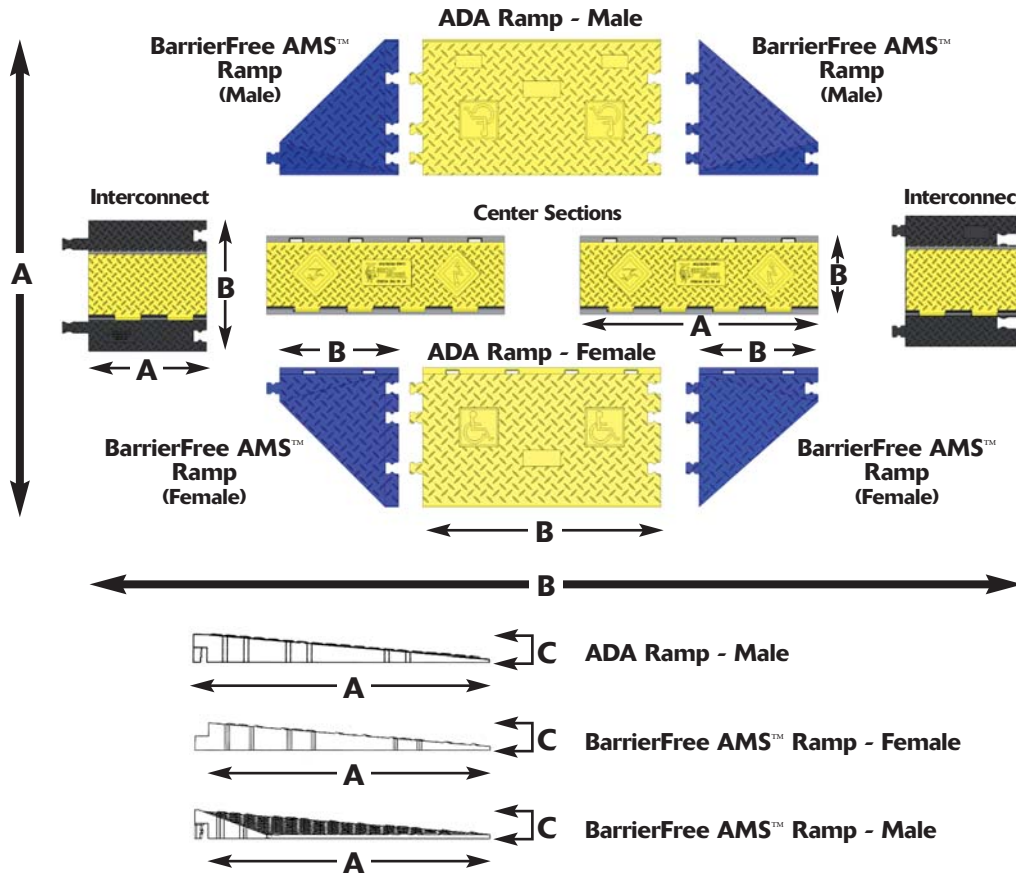

The WASP®AMS® is compatible with the following cable protector systems:

- Directly interfaces to the Yellow Jacket® AMS®
- Compatible with the Yellow Jacket® “Classic” and other cable protector systems that use the dog bone connector.* Requires a Yellow Jacket AMS Transition.™

Very Durable

- Made from high strength, cast molded polyurethanes using Yellow Jacket, Inc.’s proprietary Castathane® process. These materials have been proven in over 20 years of use. Available in heavy duty Durathane® or extreme duty Hiperthane®
- Resistant to oil and solvents

Drawings are representational and are not necessarily to scale.

Components and Dimensions

DESCRIPTION	MODEL #	Length (A)	Width (B)	Height (C)	Weight (lbs.)	Channels Width (D)	Height (E)
ADA Ramp System (As Shown)	WSA-125-KIT2-HS	53.70"	72.00"	1.95"	104	n/a	n/a
FEMALE							
ADA Ramp	WSA-125-RFAH-D	21.20"	36.00"	1.95"	25	n/a	n/a
BarrierFree AMS™ Ramps (pair)	WSA-125-BFF Ramps	21.20"	18.10"	1.95"	4.5	n/a	n/a
MALE							
ADA Ramp	WSA-125-RMAH-D	20.60"	36.00"	1.95"	27	n/a	n/a
BarrierFree AMS™ Ramps (pair)	WSA-125-BFM Ramps	20.60"	18.00"	1.95"	4.4	n/a	n/a
Center Section	YJ5-125-ACAH-DS	36.00"	12.00"	1.95"	16	1.25"	1.10"
Interconnect	YJ5I-125	18.00"	22.50"	1.90"	14	1.25"	1.10"

All measurements and weights are nominal.

* dog bone connector was designed by Yellow Jacket, Inc's parent corporation and is licensed to other manufacturers.
